ENCOURAGING FEATURES WHICH CALL FOR NOTABLE MENTION.

Sustained Activity in Industrial Lines, Large Shipments of Goods on Orders, Liberal Cereal Exports and Heavy Dealings in Speculative Markets Among Them.

New York, Dec. 30 .- Bradstreet's tomorrow, December 31, will say: Holiday quiet in general demand, sustained activity in industrial lines, particularly iron and steel, exceptionally large shipments of goods on orders, liberal cereal exports and specially heavy dealings in speculative markets, are features calling for notable mention in the closing week of the year. Firmness in price is likewise an encouraging feature in most staples. Wheat, though showing a reaction, is higher on the week on large export clearances and other cereals are in sympathy. Pig iron de-mand grows, and prices for this product and for steel ralls, steel billets, plates and wire rods are all bigher on the week, while the volume of foreign demand for our finished metal products apparently increases as the year draws to its conclusion.

Reports received as to the year's business in all sections of the country point to an unprecedented volume of domestic and export trade, which is reflected in bank clearings that break the high record of 1892. The general level of prices of staples and securities at the close of the year it at the highest point reached for five years past. Rallroad earnings exceed all previous years, and was a smaller number and lower liabliities than reported in any year for at least five years' past. These general and Mrs. Crofut's brother, Dr. Willis sults in the country at large have been achieved, in spite also of unfavorable conditions in some industries, notably textile manufacturing, which with the lowest price for cotton on record, exercised an unfavorable influence. But the close of the year finds an improvement even in those directions, and returns as to retail trade, are strikingly good in all sections.

The export trade of the country for the year is the heaviest ever known, being nearly double the imports. Our export trade in manufactured goods is the heaviest ever known, and for the first time in our country's history exceeded the value of imports of similar goods.

Hospitality Returned.

During the recent blizzard a number of railroad men on one of the lines of the Fair Haven and Westville rallroad were stalled. The firemen of pitality took them in, and for some forty-eight hours sheltered them and shared their rations and beds with them. Last evening the grateful railroad men still remembering the good times in engine house No. 9 suddenly appeared with a box of choice cigars. The result was an evening of jovality and good cheer.
